## LETTER TO OUR SHAREHOLDERS

Dear shareholders,

DBAG's business development during the first nine months has been thoroughly satisfactory. We can report on positive operative performance of our portfolio companies, as well as on successful transactions. Both formed the basis for our further specified forecast for the financial year 2022/2023, published on 17 July 2023, which we confirm with this quarterly statement.

Although we had already raised our forecast ranges for net asset value and net income on 18 April 2023, we are now targeting the higher end of those ranges. Earnings from Fund Investment Services also developed favourably during the first nine months, and are in line with planning.

The private equity market currently offers attractive opportunities that DBAG systematically exploits for its further development. These include, in particular, one disposal and four new investments that were originated during the quarter under review and made public in July: for instance, the sale of R+S – DBAG's first investment exclusively financed from its own balance sheet – to NOKERA was successfully concluded.

At the same time, DBAG reinvested part of the proceeds in NOKERA, which allows the Company to continue participating in the attractive growth prospects of the market for cost-efficient and sustainable residential properties. Moreover, this is an investment in sustainable construction, a sector driven by the ESG trend. Overall, DBAG is increasingly committed to the energy transition – as demonstrated, for

example, by investments in the biogas platform Avrio Energie and in TBD Technische Bau Dienstleistungen, which are held via a fund advised by DBAG.

TBD's growth perspectives are driven in particular by the ongoing transition to alternative energy sources and the shift towards new energy infrastructure. For example, the company was involved in the connection of the new LNG terminal in Wilhelmshaven. Headquartered in Friedeburg (East Frisia), TBD operates in a region that, as an energy hub, plays a major role in the energy supply of the future.

In addition, DBAG continues to focus on digitalisation, with its investment in the AOE Group being the seventh investment in the growth sector of IT services and software. AOE Group is a leading service provider for agile software development, with a focus on customised business solutions. It benefits from the strong tailwinds provided by transformative topics such as cloud, digitalisation and data management.

DBAG's good performance during the first nine months of the year underscores the competence and experience of our high-performance Investment Advisory Team. The 20 per cent net asset value growth once again demonstrates our value-creating capabilities. With the new investments, DBAG has set the course to continue on its successful path in the future.

### NET INCOME FROM INVESTMENT ACTIVITY

- › Please refer to page 8.

### INCOME FROM FUND SERVICES

- › DBAG Fund VIII: 14.4 million euros, compared to 14.3 million euros in the previous year
- › DBAG Fund VII: 13.2 million euros, compared to 11.9 million euros in the previous year
- › As expected, income from DBAG Fund VI was down and DBAG ECF was up year-on-year.

### PERSONNEL EXPENSES

- › Down year-on-year, particularly because one-off expenses in connection with the departure of a member of the Board of Management in the prior-year period no longer played a role. By contrast, there was a slight increase in expenses for fixed salaries due to higher average staff numbers. Moreover, provisions for performance-related remuneration increased, largely due to the positive performance of our portfolio companies.

### OTHER OPERATING INCOME

- › Slight decline in income from passing on consultancy expenses for transactions concluded by advised funds

### OTHER OPERATING EXPENSES

- › Decrease in consultancy expenses that can be passed through for transactions concluded by advised funds – in line with other operating income
- › Increase in maintenance and licence costs for hardware and software as part of the continuous enhancements to the security of our IT infrastructure
- › Increased costs associated with staff recruitment and professional development, as well as external staff
- › Increased depreciation and amortisation expenses on property, plant and equipment and intangible assets following the move to new premises

## GROSS GAINS AND LOSSES ON MEASUREMENT AND DISPOSAL PORTFOLIO

› Please refer to pages 9 to 10.

## NET INCOME ATTRIBUTABLE TO OTHER SHAREHOLDERS OF INVESTMENT ENTITY SUBSIDIARIES

- › Mainly concerns imputed carried interest (please refer to the Annual Report 2021/2022, pages 32, 37 and 53, for an explanation of carried interest)
- › In line with the higher gross gains and losses on measurement and disposal, the corresponding deductible item has increased, compared to a decrease in the previous year

## CURRENT PORTFOLIO INCOME

- › Mainly relates to interest payments on shareholder loans; increased year-on-year, because the volume was higher after new loans were extended to portfolio companies. Down in the third quarter, as the volume was reduced

## NET GAINS AND LOSSES FROM OTHER ASSETS AND LIABILITIES OF INVESTMENT ENTITY SUBSIDIARIES

- › This item mainly includes remuneration for the manager of DBAG Fund VII and DBAG Fund VIII, based on the capital invested or committed by DBAG

## FAIR VALUE OF UNLISTED INVESTMENTS

- › Net measurement gains and losses from 35 active equity investments, of which four have been partially disposed of (Cloudflight, evidia, GMM Pfaudler, and Telio), from an investment in an externally-managed foreign buyout fund of minor significance, and from other investments (investments made to settle representations and warranties on previous disposals which are no longer expected to deliver any appreciable value contributions)
- › Valuation method: 32 investments measured using the multiples method, two based on exit multiples; valuation of the shares in GMM Pfaudler Ltd. (listed in India) based on the adjusted closing price of the shares on the reporting date
- › Positive operating performance (net positive difference between changes in earnings and debt)
  - Change in earnings: the vast majority of sectors provided positive earnings contributions – especially from IT services & software, broadband/telecommunications, industry and industrial technology, in part due to company acquisitions.
  - Change in debt: in particular driven by add-ons of our investments in broadband/telecommunications, in IT services & software as well as in healthcare
- › Change in multiples: overall positive value contribution due to significantly higher share prices at the reporting date compared to price levels as at 30 September 2022. The improvement affected the majority of the peer groups of our portfolio companies. Transaction effects also played a role.
- › When broken down by sector, net measurement gains and losses are driven in particular by IT services & software and industrial services.

## NET GAINS AND LOSSES ON DISPOSAL

- › Notable value contributions came from the sale of the investments in BTV Multimedia, Cloudflight and Pmflex as well as from the partial sale of the GMM Pfaudler investment

### CASH FLOW FROM OPERATING ACTIVITIES

- › General fluctuations related to call dates for advisory fees
- › The previous year's figure includes the receipt of advisory fees for DBAG Fund VII (deferred since July 2019) in the amount of 27.8 million euros

### CASH FLOW FROM INVESTING ACTIVITIES

- › This figure is shaped by the cash flow from investment activity and the related volatility, which is typical for the Company's business
- › Notable cash inflows came from the sale of the investments in BTV Multimedia, Cloudflight, Heytex and Pmflex as well as from the partial sale of the GMM Pfaudler investment

### CASH FLOW FROM FINANCING ACTIVITIES

- › The cash flow from financing activities was dominated by the repayment of the credit line and distribution of the dividend to the Company's shareholders following the Annual Meeting on 28 February 2023.

### FINANCIAL RESOURCES

- › Financial resources comprise exclusively cash and cash equivalents; investment entity subsidiaries also hold cash and cash equivalents amounting to 5.6 million euros

- › Portfolio value is equivalent to 1.1 times the original cost (30 September 2022: 1.0 times). Business models in industry and industrial technology sectors are valued at 1.2 times acquisition cost (30 September 2022: 1.1 times), whilst business models in growth sectors are valued at 1.4 times acquisition cost (30 September 2022: 1.3 times)
- › Share of portfolio companies with leverage of 3.0 or more of 82 per cent (30 September 2022: 69 per cent), also due to the portfolio composition. Portfolio value by leverage does not include any partial disposals or residual items

### CHANGE IN PORTFOLIO VALUE

- › Additions: mainly capital calls of existing portfolio companies
- › Disposals: mainly the sale of the investments in BTV Multimedia, Cloudflight, Heytex and Pmflex as well as the partial sale of the GMM Pfadler investment
- › Change in value: driven by positive value contributions from changes in multiples and changes in earnings (please refer to source analysis 1)

<b>Available liquidity</b>	<b>179,604</b>	<b>84,818</b>
<b>Co-investment commitments alongside DBAG funds</b>	<b>263,596</b>	<b>199,267</b>

### EARNINGS BEFORE TAXES

- › Positive valuation contribution from multiples of listed peer group companies, transaction effects, as well as positive operating performance (net change in earnings and change in debt, please refer to “Financial performance”).

### OTHER INCOME/EXPENSE ITEMS

- › Decrease in personnel expenses attributable to this item mainly due to lower severance payments (please refer to “Financial performance”); figure includes internal management fees paid to the Fund Investment Services segment in the amount of 0.3 million euros; in contrast, higher interest expense due to increased drawdown of credit lines

### NET ASSET VALUE

- › 20 per cent increase since the end of the 2021/2022 financial year, adjusted for dividend payment of 15.0 million euros
- › Financial resources include cash and cash equivalents
- › Please refer to “Financial position – assets” and “Financial position – liquidity” for details regarding the development of financial assets, other financial instruments and financial resources

### CO-INVESTMENT COMMITMENTS ALONGSIDE DBAG FUNDS

- › Increase in co-investment commitments mainly due to a new DBAG fund; available liquidity determined by irregular cash flows, which are typical of our business model

## Fund Investment Services segment

### SEGMENT EARNINGS STATEMENT – FUND INVESTMENT SERVICES

€'000	1st to 3rd quarter 2022/2023	1st to 3rd quarter 2021/2022	3rd quarter 2022/2023	3rd quarter 2021/2022

Outstanding capital commitments of third-party investors	536,100	489,997
Financial resources (of DBAG)	72,944	19,158
<b>Assets under management or advisory</b>	<b>2,544,836</b>	<b>2,504,318</b>

### EARNINGS BEFORE TAXES

- › The calculation basis for **INCOME FROM FUND SERVICES** is increasing due to higher acquisition costs; internal income from the Private Equity Investments segment (unchanged at 0.3 million euros) is taken into account

### OTHER INCOME/EXPENSE ITEMS

- › Reduction in personnel expenses attributable to this segment mainly due to lower severance payments (please refer to “Financial performance”), whilst other operating expenses increased due to higher IT costs, amongst other factors

### ASSETS UNDER MANAGEMENT OR ADVISORY

- › Increase in total funds invested in portfolio companies, decrease in short-term bridge financing for new investments due to DBAG's investment activity, which was temporarily reduced recently
- › Higher outstanding capital commitments of third-party investors essentially due to a new DBAG fund, and DBAG's financial resources increasing after disposals during the first nine months of the current financial year (please refer to “Financial position – liquidity”).
- › Net assets under management or advisory on balance higher than as at 30 September 2022

## REPORT ON MATERIAL EVENTS AFTER THE REPORTING DATE

### ACQUISITIONS AND DISPOSALS

In July 2023, the investment in **AVRIO ENERGIE** was agreed upon alongside a private equity fund advised by DBAG. In addition, the investments in **AOE GROUP** and in **TBD TECHNISCHE BAU DIENSTLEISTUNGEN** were agreed upon in the same month.

In July 2023, the disposal of DBAG's Long-Term Investment in **R+S GROUP** was agreed upon. Part of the disposal proceeds is being reinvested in the buyer, **NOKERA**, which is DBAG's fifth Long-Term Investment.

## OPPORTUNITIES AND RISKS

The statements made in the Combined Management Report as at 30 September 2022 continue to apply in principle (please refer to the annual report 2021/2022, pages 73 et seqq.).

- › As at 30 September 2022, ten risks were assigned a “high” or a “very high” expected value.
- › One risk that was assigned a “very high” expected value as at 30 September 2022 has now been assigned a “high” expected value. The probability of occurrence for the risk factor “Negative impact of general economy and economic cycles on earnings, financial and asset position of portfolio companies” declined from “likely” to “possible”.
- › The expected values of nine risk factors which had a “high” expected value as at 30 September 2022 remain unchanged.  
During the first nine months of the financial year, two new risks with a “very low” expected value were added to the risk register, which now comprises a total of 61 individual risks.

## FORECAST

The forecast made in the annual report 2021/2022 (please refer to pages 86 et seqq.) was updated due to the stronger than expected first half of 2022/2023. The new forecast was confirmed on 11 May 2023:

Expected net asset value 2022/2023: 610 to 715 million euros

Expected earnings before taxes in the Private Equity Investments segment 2022/2023: 75 to 105 million euros

Expected net income 2022/2023: 85 to 115 million euros

Expected earnings from Fund Investment Services 2022/2023: 13 to 15 million euros (unchanged compared to the annual report 2021/2022)

After the unexpected contribution to DBAG’s third-quarter 2022/2023 net income from the sale of R+S Group, DBAG further specified its forecast on 17 July 2023, and is now expecting to achieve the upper half of the previous forecasting range for net asset value and net income.

The forecast is subject to the unchanged proviso: no significant deviation from the valuation levels in the capital markets at the end of the 2022/2023 financial year from those when the forecast was made.

Our dividend policy, which provides for a dividend that remains stable and increases whenever possible, remained generally unchanged. Three aspects continue to play a key role when it comes to deciding on the amount of the distribution: the inflow of funds from the two business segments (income from Fund Services and net inflows after disposals), future liquidity requirements for (co-)investments, and securing the dividend capacity in the long run.

## OTHER DISCLOSURES

This document is a quarterly statement pursuant to section 53 of the Stock Exchange Rules and Regulations (Börsenordnung) of the Frankfurt Stock Exchange in the version dated 17 July 2023. The consolidated statement of financial position, the consolidated statement of comprehensive income, the consolidated statement of cash flows and the consolidated statement of changes in equity were prepared in accordance with International Financial Reporting Standards (IFRS). The accounting, valuation and consolidation methods used are the same as those used in the previous consolidated financial statements as at 30 September 2022.
